

Shots for 7th and 12th Graders

Friday 6/8/18 1:30-3:30pm

Jefferson County Health Department will be administering vaccines at Harpers Ferry Middle School (1710 West Washington Street) on Friday, June 8, 2018 from 1:30 to 3:30pm. No appointment needed, just walk in! This is the same day, time and location that Harpers Ferry Family Medicine will be doing free sports physicals for Jefferson County students.

Parents MUST bring:

- **Up-to-date shot record**— If you don't have a copy check with your child's pediatrician, the last medical office where they received shots, or their school.
- **Health Insurance card(s)**— Any and all insurance information including Medicaid. Uninsured patients under 19 are covered by the Vaccines for Children Program.
- **Your driver's license** (or other proof of identity and address)

Incoming seventh and twelfth graders in West Virginia must have Tdap and meningococcal vaccines before the start of the new school year. As we get closer to the start of the new school year fewer appointments will be available at clinics, doctors' offices, and the health department. If your child doesn't get the required shots in time, they won't be allowed to attend school! Don't wait, vaccinate!
